SUMMARY

Frontend developer Proficient in building dynamic web applications using **React** and **Next.js**, with hands-on experience in state management (**Redux**, **React Query**) and API handling. Skilled in **JavaScript**, **TypeScript**, **CSS**, and **Tailwind** for creating modern, responsive UIs. Additionally, familiar with backend development using **Nodejs**, allowing for a deeper understanding of full-stack application structures. Passionate about writing clean, maintainable code and continuously expanding my technical expertise.

INTERNSHIPS

Intensive Training Program – ITI (Information Technology Institute)

MERN Stack Track — (July 2025 – November 2025)

- Participating in a full-time intensive program focused on modern web development using MongoDB, Express.js, React, and Node.js.
- Developing hands-on projects and applying industry best practices in frontend and backend development.
- Gaining practical experience in teamwork, problem-solving, and building scalable web applications.

EDUCATION

- **B.Sc. in Computer Science**, Banha university, Egypt GPA: (3.42). (October 2020 – July 2024)

Projects

E-commerce Clothing Store

- Developed the frontend of an e-commerce website with features like JWT authentication, Stripe payment integration, and user management by consuming APIs.
- **Technologies Used:** React, Redux, React Query, Axios, and CSS Modules.
- Look up the source code on [GitHub](#) | Live Demo [Live Demo](#)

Smart Assistant for Ophthalmologists (Graduation Project with A+)

- Full-featured system to assist ophthalmologists in the early diagnosis of common retinal diseases using AI-powered analysis. The system facilitates doctor-patient interactions by enabling appointment scheduling, prescription management, and real-time feedback.
- **Technologies Used:** React, Redux Toolkit, React Router, React Query, Axios, JavaScript, CSS.
- Look up the source code on [GitHub](#).

Blog & Media Feed (Next.js)

- A dynamic blog application built with Next.js, allowing users to create posts. Users can view all posts in a feed, mark posts as favourites or remove them. The app efficiently manages post interactions.
- **Technologies Used:** Next.js, React, Tailwind CSS, RESTful API
- Look up the source code on [GitHub](#)

Atlas Movies

- a comprehensive platform for movie enthusiasts, with features to help you explore and enjoy movies, series, and actors, connects with external APIs to ensure the content is always fresh and up-to-date.
- **Technologies Used:** React, JavaScript, CSS.
- Look up the source code on [GitHub](#) | Live Demo: [Live Demo](#)

Todo Manager (Laravel)

- A simple CRUD-based task management system built with Laravel. This project includes user authentication and task management features.
- **Technologies Used:** Laravel, SQLite, Herd, Pest (for testing), RESTful API
- Look up the source code on [GitHub](#)

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, C++, PHP, SQL, Python
- **Technologies:** Next.js, React, Redux, React Query, Tailwind, Laravel.
- **Tools:** Git, GitHub, Firebase

SOFT SKILLS

- Communication, Team Collaboration, Problem Solving, Adaptability, Critical Thinking

LANGUAGES

- **Arabic** (Native)
- **English** (Very Good)

ADDITIONAL INFORMATION

- **Military status:** Exempted
