PROFILE

A front-end developer, with over 2 years of experience in front-end development and user interface design using React.js, React Hooks, Redux, Redux Thunk, Redux Toolkit, Axios, React Bootstrap, React Router Dom, Formik, Yup, and many other skills. I have developed several projects utilizing these skills, including a CRUD app system, a Books Store app, a YouTube Clone, a Cart app, 3 e-commerce apps with different skills and designs, and various other projects. Additionally, I have worked as a freelance front-end developer on the freelancing sites Khamsat, Mostaql, and Upwork since May 2022.

PROFESSIONAL EXPERIENCE

Freelance Frontend developer, *khamsat-Mostaql - Upwork*   05/2022

- Delivered **12+** responsive web projects for clients on Khamsat, Mostaql, and Upwork since 2022, consistently achieving **5-star ratings** and maintaining a **100% client satisfaction rate**.

- Successfully delivered multiple freelance projects including a full accounting and management system built with React, a sales system originally developed in Laravel and redesigned in React, a complete eCommerce website using React.js and Next.js, and an advanced IoT-based robot control dashboard integrating PHP/MySQL with MQTT protocol for real-time monitoring and alerts.

Internships
